ABSTRACT

"FACTS" is a directory of information about various aspects of New England higher education. In this special issue, state-by-state institutional listings provide relevant information about New England institutions of higher education. Encompassed within each listing are data about tuition and room and board charges, enrollment figures, endowment, physical plant values, and the number of faculty and staff at each of the approximately 280 institutions. A narrative description of each institution precedes each listing. At the end of each school's information is a summary of admissions information, which includes application deadlines, application fees, required admissions examinations, special admissions programs, and phone numbers for admissions offices. The directory includes names and titles of school administrators. In addition to school information, the directory presents data on higher education in New England. Information is presented in 163 tables and charts including New England higher education enrollment, degrees conferred, student migration, faculty data, federal and state financing of higher education, research and development endeavors, and minority participation levels. The directory is published annually. Data on higher education is revised each year. (HB)

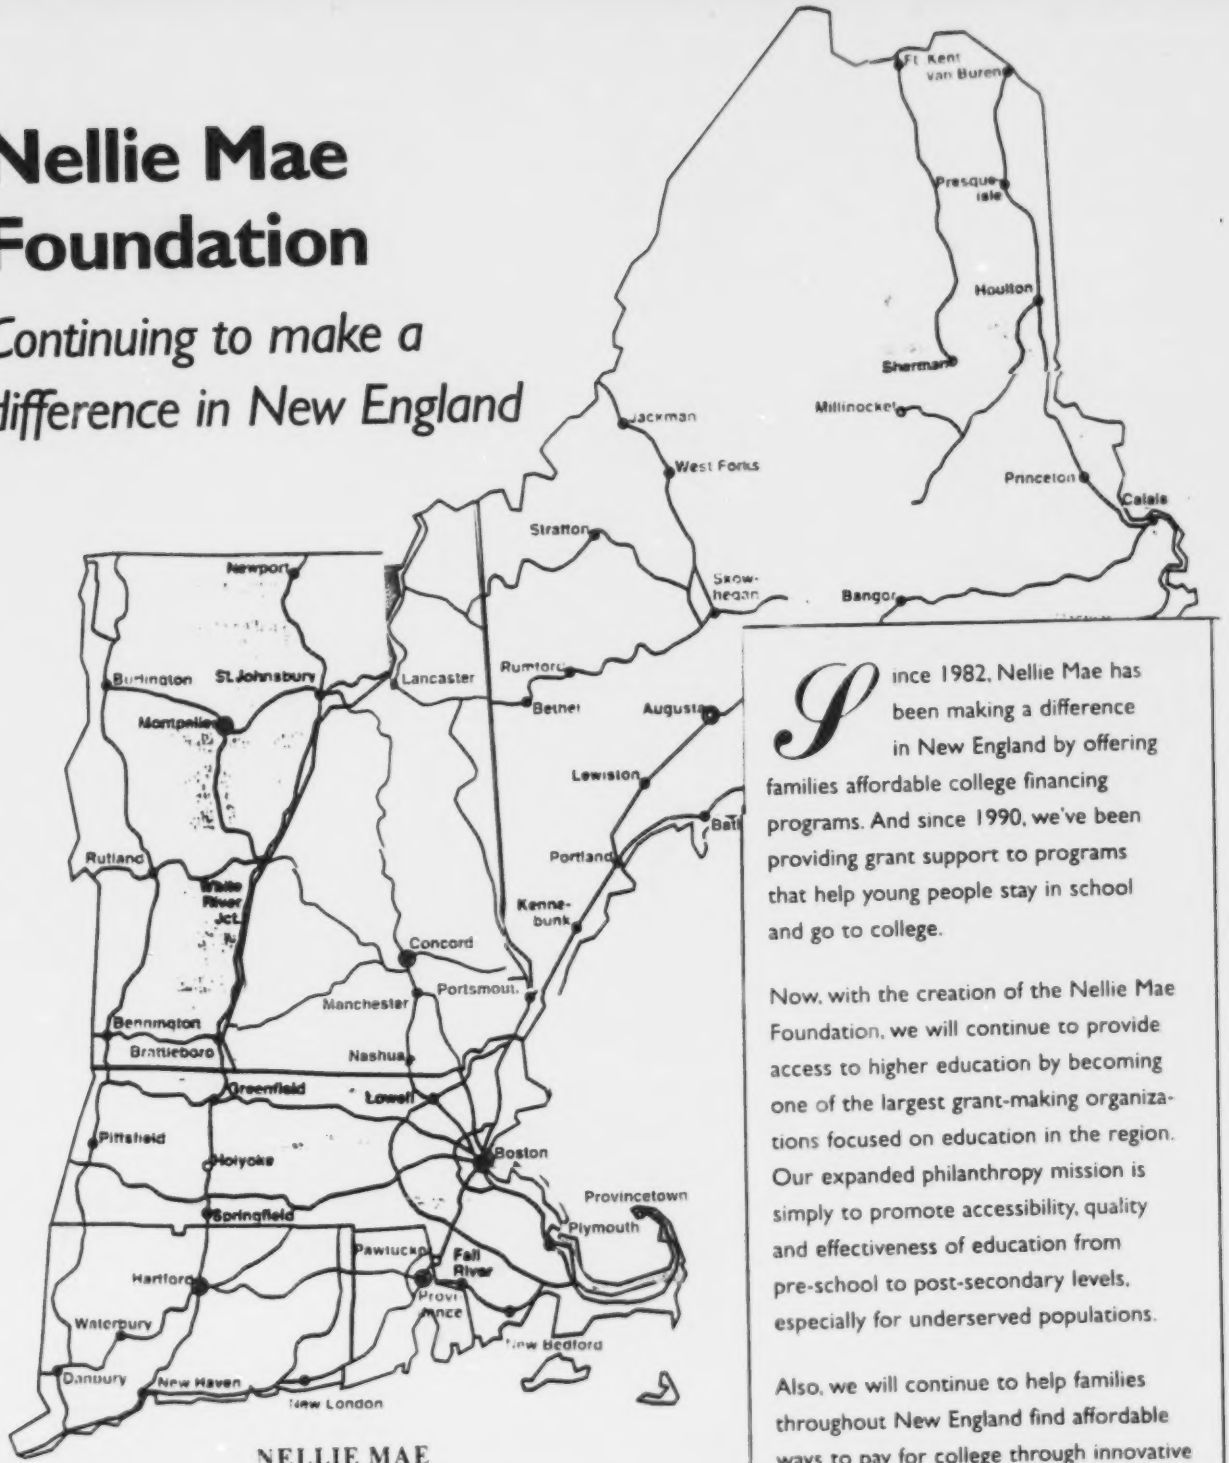
Nellie Mae Foundation

Continuing to make a difference in New England



NELLIE MAE FOUNDATION

Since 1982, Nellie Mae has been making a difference in New England by offering families affordable college financing programs. And since 1990, we've been providing grant support to programs that help young people stay in school and go to college.

Now, with the creation of the Nellie Mae Foundation, we will continue to provide access to higher education by becoming one of the largest grant-making organizations focused on education in the region. Our expanded philanthropy mission is simply to promote accessibility, quality and effectiveness of education from pre-school to post-secondary levels, especially for underserved populations.

Also, we will continue to help families throughout New England find affordable ways to pay for college through innovative financing programs that meet diverse student needs.

To find out more about the work of Nellie Mae and the Nellie Mae Foundation, please call Sylvia Salas at 781-849-1325, ext 2429, or e-mail ssalas@nelliemae.org

We manage over 3.5 million square feet of bookstore space.

(That's over one and a half Empire State Buildings.)

Actually, managing a few skyscrapers would be easier than what we do so successfully. Follett operates more than 500 unique, challenging bookstores from coast to coast, 46 states and Canada, to be exact. • And for each new store — from large universities to small private colleges — we think of new ways to make our management work for your individual needs. We provide innovative training for your employees. We may even recommend top-to-bottom renovation of your store. (Last year, in fact, we remodeled over 400,000 square feet of space.) All at our own expense. • Why do we go to such great lengths? Because at Follett, we know how to manage a thriving bookstore. So while we focus on outstanding service and making your store more profitable, you can focus on education. It's that simple. And it means together, we can truly become partners in education.

EDITOR'S MEMO

Welcome to the 30th edition of FACTS: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES. Each year, FACTS provides its readers with a detailed view of New England's higher education community. With 5.5 percent of the nation's higher education enrollment and more than 6 percent of U.S. colleges and universities, the region possesses a uniquely dense concentration of institutions of higher learning. These institutions produce the graduates who power America's most knowledge-intensive regional economy.

Published as the annual directory issue of NEBHE's quarterly journal CONNECTION: NEW ENGLAND'S JOURNAL OF HIGHER EDUCATION AND ECONOMIC DEVELOPMENT, FACTS is meant to appeal to a broad audience. New England's corporate and business leaders, educators, government officials and researchers will find FACTS to be an excellent resource for data examining many aspects of New England higher education, its prominence in the nation's academic landscape—and areas where that prominence is in jeopardy. Students, parents and others will find valuable information in their quest to choose a college or university that meets their needs, whether they seek a traditional four-year bachelor's degree, specialized training or the advanced degrees and coursework required to remain competitive in their established careers.

The state-by-state institutional listings in FACTS 1999 provide essential information on: tuition and room and board charges; enrollment; endowment; physical plant values; and the number of faculty and staff at each of the nearly 280 institutions listed. Listings are designed to be consistent and reader-friendly starting with a brief narrative describing each institution. A summary description of admissions information at the end of each listing includes pertinent information about application deadlines, application fees, required admissions examinations, special admissions programs and phone numbers for admissions offices. Additionally, more than 5,000 updated names and titles of college administrators are included within these listings.

Ideal for researchers, legislators, reporters and others seeking reliable information about New England higher education, FACTS 1999 also features comprehensive New England higher education data. This issue's data section includes 163 tables and charts detailing: New England higher education enrollment; degrees conferred; student migration; faculty data; federal and state financing of higher education; research and development activities; and minority participation in higher education. This material is revised annually with the goal of providing a clear data-driven timeline of the region's higher education performance.

While FACTS provides a thorough and efficient summary of higher education's relationship to New England's growth and prosperity, a more qualitative and thoughtful view is provided in companion issues of CONNECTION: NEW ENGLAND'S JOURNAL OF HIGHER EDUCATION AND ECONOMIC DEVELOPMENT. See the "Index of CONNECTION Articles" beginning on page 212.

As in past years, we wish to thank the many advertisers who have found FACTS and CONNECTION to be an excellent vehicle to communicate their message to the region's opinion leaders. The contribution of our advertisers as well as regular CONNECTION subscribers makes it possible for the nonprofit New England Board of Higher Education to regularly produce these valuable publications.

We also wish to thank the New England college and university administrators who participate each year in our annual FACTS survey. FACTS is a unique regional effort and would be impossible to produce without the 100 percent survey response and thoughtful cooperation of each of the institutions listed.

Charlotte Stratton *is NEBHE director of publications and information systems and editor of FACTS.*

New England: The Knowledge Region

By John C. Hoy

A stunning 90 percent of New England households and 96 percent of the region's "opinion leaders" think educational institutions help define New England as a region, according to the *Future of New England* survey recently undertaken by the New England Board of Higher Education and the John W. McCormack Institute at the University of Massachusetts Boston.

What is it that makes New England America's higher education region? Consider:

- The six-state region's approximately 260 colleges and universities enroll 795,000 students. They confer 7 percent of all bachelor's degrees granted by U.S. colleges and universities, 9 percent of master's degrees, 8 percent of doctorates and 7 percent of first-professional degrees in fields such as law and medicine.
- New England is the national leader in attracting students from beyond its borders. Fully 25 percent of the students enrolled on the region's campuses travel to New England from other parts of the United States to attend college, up from 20 percent in 1992. An additional 5 percent are international students—many of them from Pacific Rim countries—drawn to the region by its world-class higher education offerings.
- The region's colleges employ nearly 30,000 full-time professors and associated faculty in just about every field of human inquiry and scholarship.
- New England's $1.9 billion in academic research and development expenditures represents 8.3 percent of the U.S. total. The six-state region continues to lead the nation in university R&D expenditures per capita at $148, compared with $89 nationally. That investment in research translates into technological innovation, as New England colleges and universities regularly capture well over 10 percent of all the patents awarded to U.S. higher education institutions.
- Spending by New England campuses exceeds $15 billion this year. In addition, New England institutions control fully one-fifth of U.S. higher education endowment dollars, according to NEBHE estimates.

To be sure, the region's higher education enterprise faces challenges.

As competition for research funds has escalated, New England's share of all R&D expenditures by U.S. universities slid from 10.1 percent in 1983 to 8.3 percent in 1997.

College enrollment is another area where New England's continued leadership is in question. Enrollment has dropped steadily since 1992 when it peaked at more than 827,000. It's as if New England lost the entire student bodies of Brown University, Tufts University, Amherst College, Babson College, Bates College, Mount Holyoke College, the University of Massachusetts-Dartmouth and Mount Wachusett Community College.

New England's share of total U.S. college enrollment has decreased from 6.4 percent in the mid 1980s to 5.5 percent today. In addition, New England continues to lag in community college enrollment. On the bright side, New England enrolls a disproportionate 8 percent of the nation's graduate students.

Meanwhile, New England's approximately 75,000 African-American, Hispanic and Native American students still represent only 9 percent of New England's total college enrollment — significantly below their

DIRECTLY SPEAKING

share of the region's 18- to- 24-year-old population. Nonetheless, equal access and equal opportunity remain reachable goals. African-American enrollment at New England colleges and universities grew by 24 percent between 1990 and 1996, while Hispanic enrollment grew by 46 percent and Native American enrollment by 45 percent.

Despite good economic times, the New England states continue to invest less in public campuses than other states do. The six states appropriated just $159 per capita toward higher education operating expenses in fiscal 1999, compared with $169 nationally.

Underfunding of higher education, in turn, has led to high tuition and fast-growing mandatory fees at the region's state-supported colleges and universities. Despite three years of tuition cuts for state residents at Massachusetts public colleges—and a fourth planned—New England's public four-year institutions charged state residents $4,635 in average tuition and mandatory fees in 1998-99, compared with a national figure of $3,243, according to the College Board.

Total student aid from federal, state, institutional and other sources has reached $60 billion, thanks primarily to growth in federal student loans. The New England states, meanwhile, allocated just $7.71 per capita in student scholarships and grants in fiscal 1997, compared with $11.76 nationally.

The *Future of New England* survey also asked New Englanders how effective regional strategies among the six New England states might be in addressing important issues. Fully 78 percent approved of the concept of a regional State University of New England System to share academic resources and reduce administrative costs. A radical idea?

Not really. For four decades, NEBHE's Regional Student Program (RSP) has offered New Englanders the advantages of a comprehensive regional state university system without compromising the institutional diversity that makes New England's higher education enterprise so revered worldwide. The RSP offers New England residents significantly reduced tuition rates at out-of-state public campuses within the New England region if they pursue certain majors that are not available at public campuses in their home state.

The RSP has provided 290,000 semester tuition reductions since its inception. In academic year 1998-99 alone, more than 7,300 New Englanders saved an average of $4,500 each in annual tuition costs under the program for a total of nearly $34 million.

The RSP also saves New England taxpayers millions of dollars by enabling state higher education systems to share, rather than duplicate, high-cost academic programs available in neighboring states.

The *Future of New England* survey also revealed that New Englanders and their leaders in government, education, business and the media see no more urgent need, no more surer investment than preparing and sustaining the highest-skill, best-educated workforce on the face of the earth. The 21st century will require more knowledge than we currently possess. We must get to work.

***John C. Hoy** is the president of NEBHE and publisher of CONNECTION.*

Tuition Break for New England Residents

Maine Maritime Academy Photo

Ocean Studies
Maine Maritime Academy

The New England Regional Student Program (RSP) gives New England residents a tuition break when they study certain majors at public colleges and universities in other New England states.

New England students can save up to 75% on out-of-state tuition when they study RSP-approved majors – majors which are not offered by public colleges in their home states.

© Kindra Clineff

Consumer and Family Studies
Framingham State College, MA.

In the last 10 years, New England residents saved more than $220 million in tuition, because of the RSP.

All 78 public colleges and universities in New England participate in the RSP. Together, these two-year and four-year campuses and graduate schools offer more than 700 majors at reduced tuition to out-of-state New England residents.

Choose From Hundreds of Majors

More than 700 majors — associate, bachelor's and graduate — are offered through the RSP at reduced out-of-state tuition to eligible New England residents. Majors are approved each year by the participating institutions and listed in the annual RSP catalog.

A Sampling of RSP Programs Available 1999-2000

How to Apply:

- You must be a resident of a New England state — Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island or Vermont.

University of New Hampshire Photo

Horticultural Technology
University of New Hampshire's Thompson School

- You must select and enroll in an RSP-approved major that is offered by a participating college to residents of your state through the RSP. Approved majors are listed in the annual RSP catalog and on the website (www.nebhe.org).

- No additional application is required. A participating college's application form usually includes a question regarding the RSP. If not, you should write clearly on the application that you are applying through the New England Regional Student Program and declare an RSP program as your intended major. Applicants accepted into eligible programs will be notified by the institution where they applied for admission whether they have been granted RSP status.

Note: The RSP provides a tuition break. It is not a financial aid or scholarship program. An RSP student may apply for financial aid from other sources.

Where to find the RSP Catalog:

The RSP catalog is available at high school guidance offices and public libraries throughout New England, as well as admissions and career planning offices at New England public colleges and universities.

The RSP catalog can also be ordered from the New England Board of Higher Education (use order form provided).

An online version of the catalog is available at **www.nebhe.org.**

RSP online: www.nebhe.org

RSP Students Save Thousands of Dollars in Annual Out-of-State Tuition

THE RSP TUITION BREAK

The RSP gives a tuition break to New England residents enrolled in certain programs not offered by their home-state public colleges and universities.

- Students pay **in-state tuition** when they attend a public college or university in their home state.
- Students pay **out-of-state tuition** when they attend a public college in another state.
- Students pay **RSP tuition** when studying a major that is not offered by any public college in their home state, but is offered by a public college in another New England state through the RSP. The RSP tuition rate is a significant break on a college's regular out-of-state tuition rate. (In some cases, RSP students reduce their out-of-state tuition bills by 75 percent.)

For example:

(1) In 1998-99, undergraduate RSP students enrolled at Massachusetts College of Art pay $1,890 in annual tuition — instead of $7,400, the regular out-of-state tuition rate. This represents a tuition break of nearly 75% on the out-of-state rate. (Massachusetts residents enrolled at Massachusetts College of Art pay $1,260, the in-state rate.)

(2) In 1998-99, undergraduate RSP students enrolled at the University of Maine pay $5,805 in annual tuition — instead of $10,950, the regular out-of-state tuition rate. This represents a tuition break of nearly 47% on the out-of-state rate. (Maine residents enrolled at UMaine pay $3,870, the in-state tuition rate.)

More than 7,200 RSP students were enrolled during academic year 1997-98. Each RSP student saved an average of $4,400 on annual tuition bills through the RSP in 1997-98 — for a combined one-year savings of nearly $32 million.

Fred Maryanski, VC, Academic Administration
Dale Dreyfuss, VC, Business and Administration
4– Paul J. Kobulnicky, VC, Information Services
Scott Brohinsky, Dir. of University Communications
M. Dolan Evanovich, Associate Provost of Enrollment Management
Mona Lucas, Dir. of Student Financial Aid
Robert Baldwin, Interim Dean of Extended and Continuing Education
Wayne Locust, Dir. of Admissions
Tom Callahan, Dir. of Governmental Relations
C. William Colburn, Dir. of Alumni Office
Brinley Franklin, Dir. of University Services
Lewis Perkins, Dir. of Athletics
Jeff vonMunkwitz Smith, University Registrar

5– Campus Environment ..... rural
6– Accreditation ..... NE, specialized

1. The higher education institutions listed in FACTS 1999 are authorized to grant academic degrees at certificate, associate, bachelor's, master's or doctoral levels. (There are a few exceptions: students at Saint Thomas Seminary in Connecticut, Forsyth School for Dental Hygienists and the School of the Museum of Fine Arts in Massachusetts earn degrees through affiliation with other schools.) Colleges and universities are listed alphabetically by state, with public institutions appearing first, followed by independent institutions. A special section listing law and medical schools follows the state-by-state sections.

Independent institutions listed in FACTS are nonprofit except for the following proprietary institutions: Briarwood College and Paier College of Art, Inc. in Connecticut; Andover College, Beal College and Casco Bay College in Maine; Arthur D. Little Management Education Institute, Katharine Gibbs School and Massachusetts Communications College in Massachusetts; Hesser College and McIntosh College in New Hampshire; and New England Culinary Institute in Vermont. Information in the FACTS 1999 institutional listings is based on the results of a New England Board of Higher Education (NEBHE) survey conducted in the summer and fall of 1998.

2. Institutions generally provide their main telephone and facsimile numbers and, if available, the institution's address on the World Wide Web. (For telephone numbers of admissions offices, see the listing section titled "Admissions Information.")

3. Brief descriptions note the year the institution was founded, types of programs offered and degrees awarded.

4. The FACTS survey asks campuses to provide the names and titles of up to 30 campus officers. In general, the campus officers listed and the order in which they appear are determined by the survey respondent.

5. For consistency, descriptions of campus environment are generally limited to **rural, suburban** or **urban.** Because this information is self-reported, this item reflects how respondents perceive the institution's immediate surroundings.

6. Most New England colleges and universities are accredited by the New England Association of Schools and Colleges (NEASC), a regional accrediting body based in Bedford, Mass. NEASC accreditation indicates that a college has purposes appropriate to higher education, has the necessary resources to achieve its stated purposes through educational programs, is substantially doing so and gives reasonable evidence that it will continue to do so in the foreseeable future. Accreditation by NEASC applies to the institution as a whole, therefore it is not a guarantee of the quality of every course offered. **NE** indicates that an institution is accredited by NEASC. **NE cand** indicates that the institution is a candidate for accreditation by NEASC.

Some New England institutions and/or their individual programs are accredited by various national accrediting bodies. **Specialized** indicates that an institution or one or more of its academic programs carries such accreditation. Interested students should contact the institution directly to determine if such accreditation exists.

In the case of the New England law and medical schools included in FACTS 1999, additional accreditation is indicated as follows:

AALS Association of American Law Schools
ABA American Bar Association
AMA-AAMA American Medical Association-American Association of Medical Assistants
AMA-CAHEA American Medical Association-Committee on Allied Health Education and Accreditation
AOA American Osteopathic Association
LCME Liaison Committee on Medical Education

7. In a **semester** system, the academic year is divided into two equal units. In a **trimester** system, the year is divided into three units. In a **quarter** system, the year is divided into four units. Other calendar systems include **4-1-4**, which features two terms of four months each and a one month intersession intended for experimental or intensive study. Variations include **4-4-1** or **4-1-4-1**. A **modular** system is characterized by short periods of study or "mods," usually about eight weeks long.

8. An institution's student body is classified as **men** for men only, **women** for women only or **coed** for men and women.

9. Tuition/Fees refers to annual tuition and mandatory fees for a typical undergraduate (except in the case of institutions that enroll only graduate students). For public institutions, in-state tuition and mandatory fees are listed first, followed by out-of-state tuition and mandatory fees. Tuition and fees are current for the 1998-99 academic year. Fees may include the cost of health insurance required by some institutions if students are not covered by comparable health insurance. The figures listed for Tuition/Fees do not include room and board charges unless otherwise indicated.

BEST COPY AVAILABLE

10. Room and Board refers to average annual charges for students living on campus and participating in a standard meal plan (unless otherwise noted) during the 1998-99 academic year. On campus housing is categorized as: **m**—housing for men; **w**—housing for women; **c**—coed housing; and **f**—housing for families or married students.

11. Listing shows the market value of institutional endowment as of June 30, 1998, unless otherwise indicated. Endowments under $1 million are not reported. In some cases, institutions report only directly held endowment funds, though substantial funds may be maintained by affiliated foundations or other groups. In most cases, the values of endowments listed in the law and medical school section of FACTS are also included in the affiliated institution's total endowment in the state-by-state listings.

12. NEBHE asked institutions to provide the book value and replacement value of their institution's physical plant (buildings only) as of Jan. 1, 1998.

13. NEBHE asked institutions to provide the total number of *full-time* employees (excluding faculty) and total employees (excluding faculty) as of Jan. 1, 1998.

14. NEBHE asked institutions to provide the total number of *full-time* faculty and total faculty as of Jan. 1, 1998.

15. The first figure refers to the number of volumes in the library; the second refers to the number of periodical subscriptions.

16. Enrollment figures are for the fall 1997 term. The figures are reported by institutions based on a headcount of full- and part-time degree enrollment in undergraduate and graduate degree programs and full- and part-time non-degree enrollment. It should be noted that these self-reported figures may not be comparable to the U.S. Department of Education enrollment data used in the New England Higher Education Data section of FACTS.

17. Admissions information is presented in a brief narrative form and may include: examinations required by institutions as part of the application process; application deadlines and fees for admission of first-year students; information regarding special admissions programs and related deadlines; and the telephone number and email address of the institution's office of admissions.

Admissions examinations are indicated as follows:

ACT American College Testing Program
ACT/ASSETT American College Testing Program ASSETT Test
DAT Dental Aptitude Test
DHCAT Dental Hygiene Candidate Admissions Test
EPSAT Engineering and Physical Science Aptitude Test
GRE Graduate Records Examination
LSAT Law School Admissions Test
MAT Miller Analogies Test
MCAT Medical College Admissions Test of the American College Testing Program
NJ New Jersey College Basic Skills Placement Test
OAT Optometry Admissions Test
OCAT Optometric College Admissions Test of the Psychological Testing Corp.
SATI Reasoning Test (formerly the SAT)
SATII (#) Subject Tests, (formerly known as the Achievement Tests, the number in parenthesis indicates how many SATII subject tests are required)
SCAT School and College Aptitude Test
TOEFL Test of English as a Foreign Language (TOEFL is not generally listed in FACTS, though most institutions require it of students for whom English is a second language.)

Some of the more popular special admissions programs include:

Early Decision The institution offers an early decision program that requires a *non-refundable* deposit if the student accepts the offer of admission.
Early Notification The institution gives the student early notice of admission and requires the student to make a deposit which is *refundable* if the student decides not to attend.
Early Acceptance The institution offers early acceptance for qualified high school juniors.

18. Additional details and nuances in reporting are explained in the footnotes following institutional listings.

Academic Calendar	semester	– 7
Student Body	coed	– 8
Tuition/Fees	$4,158/$1,172 $12,672/$1,172	– 9

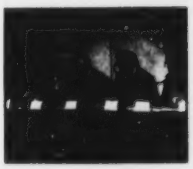
STCC

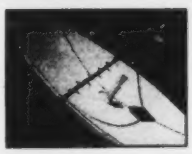
The Entrepreneurial College

STCC TECHNOLOGY PARK
This 15.3-acre site houses small technology-based tenants. According to these businesses, one of the attractions of the location is the skilled workforce represented by STCC students and graduates.

SPRINGFIELD ENTERPRISE CENTER
Opening this fall in the Technology Park, the SEC will include a small business incubator, offering supportive services and consulting to as many as 20 start-up businesses. Some of these ventures may be created by our enterprising graduates.



STCC ENTREPRENEURIAL INSTITUTE
Training aspiring business owners, the Institute is already fostering entrepreneurship through credit and non-credit courses, youth programs, and community events. It will be located in the SEC.



BELL ATLANTIC NEW ENGLAND NEXT STEP PROGRAM
STCC is the lead college in this $8 million, 4-year program, educating Bell Atlantic employees in a 5-state region in Telecommunications Technology. A separate, non-corporate-specific program is available to STCC students.

NORTHEAST CENTER FOR TELECOMMUNICATIONS TECHNOLOGIES
Through a $5 million National Science Foundation grant, STCC directs a collaborative effort of colleges, high schools, and corporations in developing a model curriculum in telecommunications technology. STCC students may intern at the Center and in allied corporations.

ENTREPRENEURS IN EDUCATION
The entrepreneurial spirit at STCC is evident in many ways, from responding to the needs of industry by revising curriculum or developing new programs, to pursuing new ways of learning and teaching, such as developing customized multimedia and distance education courses.

University of New Haven—
Degrees You Can Take to Work

UNH is an independent, comprehensive university located in southern Connecticut at the gateway to New England. The hallmark of a UNH education is quality educational opportunities at all post-secondary levels, through **career oriented academic programs** with a strong liberal arts foundations, taught by a caring and highly qualified faculty in diverse campus environments.

Choose from
80 undergraduate degree programs,
focusing in such areas as:

Arts & Sciences

Business

Public Safety & Professional Studies

Engineering

Hotel, Restaurant, Tourism & Dietetics Administration

Besides academics, the University of New Haven is proud to sponsor **14 Division II athletic teams**, as well as **over 50 student clubs** and organizations. Our 75-acre campus, overlooks scenic Long Island Sound and Connecticut beaches are very nearby.

For more information please contact the admissions office at 1-800-DIAL-UNH, extension 7319.

Visit the UNH website:

Education that Works.

Today's jobs, as well as tomorrow's, require more skills and more education to keep up with technology and to remain competitive in the job market. The better paying, more interesting jobs require training beyond high school -- but not necessarily a four year degree.

With programs in over 100 career areas, the Community-Technical Colleges of Connecticut can give you the skills and education you need to get a head start on your future.

All high school graduates are eligible for admission, no SATs are required, and tuition and costs are low. And there is financial aid for qualified students.

Call 1-800-33-CLASS or the Community-Technical College near you to find out why it is --

A Great Way to Start.

Experience New England

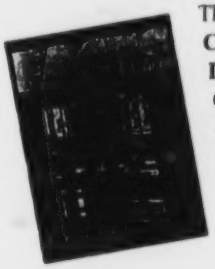
at www.nebhe.org

New England's extraordinary concentration of more than 200 public policy research centers and institutes informs the nation's—and the world's—policies on education, health care, welfare, environmental protection, economic development and other pressing issues. Let the **NEW ENGLAND BOARD OF HIGHER EDUCATION (NEBHE)** and its acclaimed CONNECTION magazine bring you the intellectual verve of America's knowledge region.

CONNECTION: NEW ENGLAND'S JOURNAL OF HIGHER EDUCATION AND ECONOMIC DEVELOPMENT is America's *only* regional journal on higher education and economic development.

Each quarter, CONNECTION offers expert analysis and hard-hitting commentaries on topics such as workforce development, science policy, education funding, emerging industries, interstate regionalism and much more.

CONNECTION commentators include educators, journalists, and corporate and government leaders—people like Elizabeth Coleman, Howard Dean, Alan Dershowitz, Claire Gaudiani, John Kerry, C. Everett Koop, Robert Kuttner, Everett Ladd, Ira Magaziner and John Silber.



The special annual directory issue of CONNECTION called FACTS: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES is *the* leading source of information on New England's 260 colleges and universities.

Tap into the Idea Region ...

NEBHE has launched the nation's only regional framework for coordinating policy research expertise. The **New England Public Policy Collaborative** aims to create networks among policy think tanks, build policy infrastructure via the Internet and share best practices and key research through conferences and workshops.

NEBHE's Web site features a directory of **New England public policy** centers and institutes, as well as current news from the region's think tanks.

For more information on NEBHE programs, including CONNECTION advertising and subscriptions, contact:

married housing only, no family housing

Note: UNE tuition reported in Facts 1998 was incorrect. Tuition at UNE for the 1997-98 academic year was $13,575.

HER PARENTS AREN'T SHOCKED BY WHAT SHE'S DONE ON MTV.

At only 34, she became Vice President of MTV News and Specials. She did it by creating over forty award-winning news specials and documentaries on issues like racism, drugs, sexual abuse and AIDS.

Do you think Lauren Lazin was afraid to speak up in class?

Encourage your daughter to stand up and be heard in school. Tell her it's okay to be smart in front of boys. Teach her to be outspoken, assertive and inventive.

For information on how to help your daughter, call 1-800-WCC-4-GIRLS. Or you can visit us on the Internet at http://www.academic.org.

Did You Know...

The New England Board of Higher Education's New England Technology Education Partnership directs two exciting professional and curriculum development projects.

The **New England Aquaculture Educators Network (AQUA)** helps middle- and secondary-school teachers and college instructors teach students about marine and freshwater recirculating systems technologies.

The **Northeast Center for Telecommunications Technologies**, a collaborative project with Springfield Technical Community College, develops secondary and postsecondary curricula in lightwave, networking and wireless technologies.

For more information, contact:
Fenna Hanes, Director, NETEP
New England Board of Higher Education
45 Temple Place • Boston MA 02111
617.357.9620 • e-mail: fhanes@nebhe.org
www.nebhe.org

Both projects are funded in part by the Advanced Technological Education program of the National Science Foundation.

Success Begins at USM

USM combines a small school atmosphere with the choices of a larger university, with campuses in Portland, Gorham, and Lewiston in the heart of southern Maine.

- Over 40 academic majors available, with many new programs and facilities
- A quality education at an affordable cost
- Flexible class schedules offered days, evenings, and weekends

For more information, please contact: USM Admissions at (207)780-5670 or 1-800-800-4USM extension 5670

STATE FINANCIAL AID PROGRAMS

MASSGRANT

Eligibility: Permanent Massachusetts residents attending full-time at a state-approved postsecondary school in any New England state, Pennsylvania, District of Columbia or Maryland and have not received a bachelor's degree. *Award amount:* $200 to $2,500. *Application:* File the Free Application for Student Aid (FAS) between Jan. 1 and May 1 so that it is received by the appropriate processor listed in application material by May 1. There is no separate application aid form.

MEFA LOAN

Eligibility: Borrower must be a parent, legal guardian, spouse, or other creditworthy party except the student. *Loan amount:* Up to the cost of attendance, less financial aid received. *Application:* Request a MEFA loan brochure and application from participating Massachusetts colleges and universities or directly from MEFA at 800/842-1531.

PERFORMANCE BONUS GRANT

Eligibility: MASSGRANT recipients who meet certain eligibility criteria including a 3.0 grade point average and an expected family contribution of zero. *Award amount:* $350 to $500. *Application:* File the Free Application for Student Aid (FAS) between January 1 and May 1 so that it is received by the appropriate processor listed in your application material by May 1. There is no separate financial aid form.

GILBERT GRANT

Eligibility: Permanent Massachusetts residents attending full-time at an independent, regionally accredited school in Massachusetts. *Award amount:* Determined by financial aid office. *Application:* File the Free Application for Student Aid after January 1. Contact financial aid office for additional application requirements and deadlines.

TUITION WAIVER/CASH GRANT

Eligibility: Permanent Massachusetts residents enrolled in Massachusetts-supported college or university. Must also be an undergraduate and have not received a bachelor's degree. *Award amount:* Determined by financial aid office. Up to the cost of tuition. *Application:* File the Free Application for Student Aid after January 1. Contact financial aid office for additional application requirements and deadlines.

PUBLIC SERVICE SCHOLARSHIP

Eligibility: Child and/or widowed spouse of any duty deceased Massachusetts fire, police or corrections officer. Children of POW/MIA or any duty deceased Massachusetts veteran. *Award amount:* varies. *Application:* Request application, deadline and eligibility information from the Massachusetts Office of Financial Assistance. Awards not based on financial need.

PART-TIME GRANT

Eligibility: Permanent Massachusetts residents enrolled part-time in a state-approved post-secondary school. Recipient must not have received bachelor's degree. *Award amount:* varies according to demonstrated financial need. *Application:* Request application, deadline and eligibility information from the Massachusetts Office of Financial Assistance.

CHRISTIAN A. HERTER MEMORIAL SCHOLARSHIP

Eligibility: Permanent Massachusetts residents attending a secondary school (i.e. 10th or 11th grade). Student must exhibit severe personal or family related difficulties, medical problems or have overcome a personal obstacle or hardship. *Award amount:* Up to 50 percent of the student's financial need for undergraduate study provided the student demonstrates a need for that level of assistance utilizing federal methodology.

Going to bat for nonprofits

The Massachusetts Health and Educational Facilities Authority (HEFA) is the largest issuer of tax-exempt debt for colleges and hospitals in Massachusetts.

In 1998, HEFA completed $545 million in financings on behalf of 20 higher education institutions in Massachusetts, out of a total of over $1.7 billion on behalf of nonprofits in our state.

Having us on your team means having an advocate looking out for you during all aspects of a transaction, resulting in low, tax-exempt interest rates and fees. Whether your capital needs include computer equipment upgrades, building renovation, campus construction or a need to refinance outstanding debt, you can put our extensive experience to work for you. HEFA offers college and university borrowers flexibility, expertise, and cost-effectiveness. In addition to financing capital projects, HEFA also provides financial services, group purchasing, and other programs to enable colleges and universities to thrive in a constantly evolving economy.

Thank you to all our 1998 college and university borrowers:

Professor James Naismith, inventor of basketball

We led the way onto the court and around the library.

Now we're leading the way into the future.

Springfield College Professor James Naismith invented the game of basketball in 1891. And Jacob Bowne, our first librarian, collaborated with Melvil Dewey to create the Dewey Decimal System.

Innovation that improves people's lives is the Springfield College legacy. Our faculty members and alumni have been founders of: the game of volleyball, the American College of Sports Medicine, the National Parks and Recreation Association, the Campfire Girls of America, the Gay Games, and Jacob's Pillow. They have been leaders in establishing education for YMCA executives worldwide, and in the forefront of advancing intercollegiate sports for women. In 1998, they discovered and patented an *e-coli* detection method.

As we educate tomorrow's leaders in service to humanity, we continue in the tradition of Naismith, Bowne and a century of Springfield College innovators.

SPRINGFIELD COLLEGE

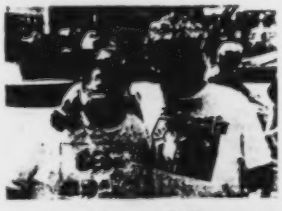
The Birthplace of Basketball

For the past decade, Best Buddies has made a real difference in the lives of people with mental retardation.

Best Buddies is dedicated to enhancing the lives of people with mental retardation by providing opportunities for one-to-one friendships and integrated employment. These associations increase self-esteem, confidence and the abilities of all involved.

Founded in 1989 by Anthony K. Shriver, Best Buddies has grown from one college chapter to a vibrant, international organization involving 13,000 participants on over 400 high school and college campuses in the United States, Canada and Greece. More than 80,000 individuals have volunteered since we began.

There are more than 7.5 million people with mental retardation in the United States and most of the country still lack the programs to help people with mental retardation become a part of mainstream society. With your help Best Buddies can make a huge difference in the lives of so many.



Please join us for our next decade of building friendships. Experience the joy of giving for the benefit of all. Call today for more information.

Best Buddies International 100 SE 2nd Street, Suite 1990, Miami, FL 33131 **1-800-89-BUDDY** www.bestbuddies.org

Serving Students Today by Providing Educational Programs and Services that Prepare Them for Tomorrow.....

In 1963 the New Hampshire General Court established the University System of New Hampshire to provide a well-coordinated system of public higher education offering liberal undergraduate education encompassing the major branches of learning, emphasizing our cultural heritage, and cultivating the skills of reasoning and communication. The University System strives to assure the availability of appropriate higher educational opportunities to all New Hampshire people. Today high-quality programs and services provided by the faculty and staff of our institutions are serving more New Hampshire citizens than ever before.

While it is impossible to meet the need of every individual, we strive to broaden educational opportunities for the citizens of New Hampshire through cooperation and collaboration with others.

We are proud of our many partnerships with the New Hampshire College and University Council, New Hampshire Technical Education system, New Hampshire Postsecondary Education Commission, New Hampshire State Board of Education, New Hampshire School Boards Association, Leadership New Hampshire, New Hampshire Industrial Research Center, New Hampshire Business and Industry Association, and dozens of other institutions and organizations here in the Granite State.

We are equally proud to be partners with the New England Board of Higher Education, New England Association of Schools and Colleges, New England Land-Grant Universities, New England Elderhostel, New England Hospital and Health Foundation, and other regional organizations helping to expand educational horizons for New Hampshire people.

STATE FINANCIAL AID PROGRAMS

NEW HAMPSHIRE INCENTIVE PROGRAM

Eligibility: New Hampshire undergraduates attending institutions in New England. Continuing students must maintain 2.0 grade point average. *Award amount:* $450 to $1,000 annually. *Application:* Deadline is May 1. Contact Judith Knapp at the New Hampshire Postsecondary Education Commission.

LEVERAGED INCENTIVE GRANT PROGRAM

Eligibility: New Hampshire residents who attend New Hampshire institutions and have completed freshman year. Colleges determine recipients based on need and merit. *Award amount:* up to cost of education. *Application:* Contact financial aid office of the New Hampshire institution.

NEW HAMPSHIRE CAREER INCENTIVE PROGRAM

Eligibility: New Hampshire residents enrolled in programs at New Hampshire institutions that lead to careers in areas that have been designated shortage areas. *Award amount:* $300 to $2,000 annually. *Application:* Deadline is May 1 for summer term, June 1 for fall term and academic year, December 15 for spring term. For application and information regarding shortage areas contact Lynn Duke at the New Hampshire Postsecondary Education Commission.

SCHOLARSHIP FOR ORPHANS OF VETERANS

Eligibility: Scholarships available to New Hampshire residents whose parent(s) died as a result of overseas military service. Certain conditions apply. *Award amount:* $1,000 per year. *Application:* Contact Patricia Edes at New Hampshire Postsecondary Education Commission.

PRIVATE FINANCIAL AID PROGRAMS

NEW HAMPSHIRE CHARITABLE FOUNDATION (NHCF) STUDENT AID PROGRAM (SCHOLARSHIPS, GRANTS AND LOANS)

Eligibility: New Hampshire residents planning to enroll in undergraduate or graduate programs at accredited two- or four-year colleges, universities or vocational schools; students must demonstrate financial need. Additional requirements for certain funds. Awards are portable to all states. *Award amount:* $100 to $2,500 annually. *Application:* Deadline is April 23. Contact NHCF.

NHCF ADULT AID PROGRAM (GRANTS AND LOANS)

Eligibility: New Hampshire residents who are independent students, preference given to single parents with little or no postsecondary education or training. Awards are need-based and portable to all states. *Award amount:* up to $500 per academic term. *Application:* Deadline is Aug. 15 for fall term, Dec. 15 for spring term, and May 15 for summer term. Contact NHCF.

NHCF EMERGENCY STUDENT AID PROGRAM (GRANTS AND LOANS)

Eligibility: New Hampshire residents enrolled at least half-time, with preference given to students closest to graduation. Awards are need-based and portable to all states. *Award amount:* One-time awards up to $1,000. *Application:* Awards made year-round. Contact NHCF.

Pathways to Exploration, Growth, and Professional Advancement

Antioch New England has been offering programs for motivated adult learners for over 35 years. In a supportive, collaborative environment that values life experiences and diverse thought, students are challenged to apply theory to practice. The result is personal and professional growth, and makes a powerful difference for you, and for us all.

Master's and Doctoral degree programs in Applied Psychology, Clinical Psychology, Education, Environmental Studies, and Management.

René Drouin
President & CEO
NHHEAF and GSM&R

"Helping New Hampshire residents access higher education is our only business and we know what it takes to be successful.

We've been doing it for 36 years."

Success doesn't happen overnight. It takes hard work, strong commitment, and the ability to see and take advantage of the best opportunities.

Not unlike the students we serve, **The NHHEAF Network** has applied those same principles to become New Hampshire's best resource for individuals to access information and funding for higher education.

Our mission is clear to all of us at The Network...provide the highest level of service to help New Hampshire students build a solid, successful future.

We've been committed to just that for over three decades and plan on being here to help for many more.

THE NHHEAF NETWORK

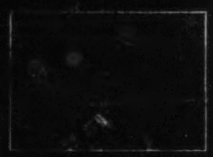
ROGER WILLIAMS UNIVERSITY



An ideal setting for learning

Located on 140 waterfront acres in Bristol, Rhode Island, Roger Williams University is committed to education and community. Students are challenged in a wide range of liberal arts majors and in the professional programs of architecture, business, education, engineering, historic preservation, justice studies and law.

A Core Curriculum bridges academic disciplines and encourages students to expand their learning horizons. A challenging Honors Program, study abroad opportunities, cooperative education/ internships, and a service learning program supplement classroom learning.

Extracurricular activities such as NCAA Division III varsity athletics, numerous clubs and organizations and community-enrichment opportunities enhance the experiences of students who come here to explore, to learn and to succeed.

Office of Admissions
ROGER WILLIAMS UNIVERSITY
One Old Ferry Road
Bristol, RI 02809-2921
Telephone 1-800-458-7144
www.rwu.edu
admit@alpha.rwu.edu

Featuring the Feinstein Enriching America Program. Roger Williams University is accredited by the New England Association of Schools and Colleges. The Ralph R. Papitto School of Law is accredited by the American Bar Association.

Expanding the World of Opportunity Since 1863

At Bryant College we understand what it takes to develop a successful career. A solid, broad education; practical experience; and an appreciation of lifelong learning are all key. Bryant College offers this, and more, through undergraduate and graduate degrees and business outreach services.

The quality of Bryant College is well known. One of the nation's top business specialty schools, Bryant is recognized by the prestigious AACSB – The International Association for Management Education.

Undergraduate degrees are offered in 12 business or liberal arts fields. Professional success is ensured through student internships and extensive career services. More than nine out of 10 Bryant graduates begin their careers or enter graduate school within six months of graduation.

Graduate students pursue MBA degrees in 10 disciplines, or an MST, MSA, or CAGS. These highly specialized programs offer working professionals an advanced education that will enhance their credentials, and their credibility.

Businesses grow when they tap into Bryant's expertise. International trade is facilitated, small businesses are developed, and managers are trained at the College's varied business centers.

To find out more about the programs and services of Bryant College, call (401) 232-6000. Or visit our website at www.bryant.edu.

CCRI

Good education and training can make all the difference

Let's face it. In today's economy, the good jobs go to those with education and training.

Each year, 15,000 Rhode Islanders turn to the Community College of Rhode Island to learn what they need to get ahead. The Community College awards Associate degrees in over 40 academic and technical programs. CCRI can help you launch a new career or upgrade your technical skills.

Or, you can take the first step towards a bachelor's degree. CCRI strives to make the first two years of college a rewarding experience. Today it's easier than ever to transfer from CCRI to colleges and universities not only in Rhode Island, but throughout New England. Students who come to the Community College of Rhode Island with the intention of transferring to a four-year college can receive preferential treatment from over 50 colleges which have agreements with CCRI to guarantee credit transfer.

Or, if you are looking for affordable employee training or professional development, CCRI can design a customized program to meet your company's needs.

To get a head start on your education, call CCRI today!

Dare to be different, *be a leader*

You can meet the *challenge*, too.

Thirty educational programs including architecture, engineering, nursing, criminal justice, business, communications, sports medicine, and environmental science. ***TRADITION*** Academic excellence since 1819 that places strong emphasis on the development of leadership skills and service to the community. ***OPTIONS*** The traditional university lifestyle, or the disciplined military lifestyle of the Corps of Cadets. ***DEDICATION*** A 14-to-1 student-to-teacher ratio insures small classes. Our professors are dedicated to teaching. ***CAMARADERIE*** Varsity, intramural or club sports and more than 80 activities, organizations, and clubs. ***FINANCIAL AID*** $25 million was awarded last year from all sources. Financial aid is available for all qualified applicants. ***ADVENTURE*** Ski, hike, swim or climb—enjoy the beauty of Vermont.

Vermont Law School

announces a new degree program

the

LL.M. in Environmental Law

This new, post Juris Doctor (J.D.) degree program will be offered beginning fall 1999. Applications for admittance are now being accepted.

Vermont Law School also offers a traditional J.D. curriculum that emphasizes the public-serving role of lawyers, and a Master of Studies in Environmental Law degree for lawyers and non-lawyers alike.

One of a handful of independent, private law schools in the United States, VLS is currently celebrating its 25th anniversary year and the 20th year of its internationally-recognized Environmental Law Center.

VERMONT LAW SCHOOL
Law for the Community and the World
1973-1998

Admissions Information: no exam required; application deadline varies, $60 fee; program in liberal medical education (BA/MD program); MD/Ph.D program; early identification program (for college sophomores); postbaccalaureate program. Phone: 401/863-2149

[1] semester for years I and II, quarter for years III and IV

[2] library totals are for Brown University science library

DARTMOUTH MEDICAL SCHOOL

HB 7020 — 603/650-1505
Hanover 03755 — FAX: 603/650-1614
www.dartmouth.edu/dms

Founded 1797; awards doctor of medicine degrees, joint MD/Ph.D. with Dartmouth College graduate programs and joint MD/master of business administration in conjunction with Dartmouth's Amos Tuck School of Business Administration. (Graduate degrees also offered by the Center for the Evaluative Clinical Sciences at Dartmouth Medical School.)

John C. Baldwin, MD, Dean
William J. Culp, Associate Dean for Academic Affairs
Adam M. Keller, Associate Dean and Chief Operating Officer
Alfred A. Blum, Jr., VP, Development
David W. Nierenberg, MD, Associate Dean for Medical Education
Hali Wickner, Communications Director
Lori Aruiso Alvord, Associate Dean for Student and Minority Affairs
Andrew G. Welch, Dir. of Admissions
Nanci Circone, Dir. of Financial Aid
Regina G. Vorce, Registrar
Ann E. Paton, Dir. of Alumni Relations and Annual Giving

NEW ENGLAND HIGHER EDUCATION DATA

HOW TO USE THE FACTS 1999 NEW ENGLAND HIGHER EDUCATION DATA SECTION

The **New England Higher Education Data** section of FACTS 1999 provides information about public and independent, two- and four-year colleges and universities in the six New England states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.

The tables and charts in this section are divided into four subsections:

- **Higher Education Profile** provides basic data on New England's colleges and universities, including number of institutions, enrollment and degrees conferred, student migration and faculty salaries.
- **Advanced Technology through Higher Education** provides data on research and development (R&D) expenditures at New England universities, as well as federal R&D obligations to New England colleges and universities. This subsection also provides data on graduate science and engineering enrollment.
- **Financing Higher Education in New England** features data on state and federal financial aid funding, tuition and fees, higher education revenues and expenditures and state appropriations for higher education operating expenses.
- **Minority Participation in Higher Education** provides data on college enrollment and degrees granted by race and ethnicity.

FIGURES	HIGHER EDUCATION PROFILE
1-3	New England Colleges and Universities: Number and Distribution
4-11	Enrollment at New England Colleges and Universities
12-19	Foreign Enrollment at New England Colleges and Universities
20-22	New England Students Abroad
23-26	Regional Migration of College Freshmen
27-31	Total Degrees Conferred by New England Colleges and Universities
32-33	Degrees Conferred on Women by New England Colleges and Universities
34-41	Undergraduate Degrees Conferred by New England Colleges and Universities
42-54	Graduate Degrees Conferred by New England Colleges and Universities
55-58	Degrees Conferred on Foreign Students by New England Colleges and Universities
59-62	Number, Rank and Average Salary of Faculty at New England Colleges and Universities

FIGURES	ADVANCED TECHNOLOGY THROUGH HIGHER EDUCATION
63-82	Research and Development Expenditures at Doctorate-Granting Institutions
83	Patents Awarded to Selected New England Institutions
84-87	Federal Research and Development Obligations to Colleges and Universities
88	Federal Expenditures and Obligations for Research and Development by State
89-91	Federal Obligations for Science and Engineering
92-97	Graduate Science and Engineering Enrollment

FIGURES	FINANCING HIGHER EDUCATION IN NEW ENGLAND
98-103	State Grant Aid Awarded to New England Students
104-109	Federal Financial Aid at New England Colleges and Universities
110-117	Tuition and Fees at New England Colleges and Universities
118-122	Revenues and Expenditures at New England Colleges and Universities
123	Appropriations of State Tax Funds for Higher Education

FIGURES	MINORITY PARTICIPATION IN HIGHER EDUCATION
124-127	New England Population and College Enrollment by Race/Ethnicity
128-131	African-American Enrollment at New England Colleges and Universities
132-135	Asian-American Enrollment at New England Colleges and Universities
136-139	Hispanic Enrollment at New England Colleges and Universities
140-143	Native American Enrollment at New England Colleges and Universities
144-147	Degrees Conferred on African-Americans
148-151	Degrees Conferred on Asian-Americans
152-155	Degrees Conferred on Hispanics
156-159	Degrees Conferred on Native Americans
160-163	Degrees Conferred on Whites

A FEW TECHNICAL NOTES

The sources for the tables and charts are listed on page 157.

Note that the U.S. Department of Education counts 282 nonprofit and for-profit colleges and universities in New England. The New England Board of Higher Education's FACTS 1999 survey questionnaire was sent to 277 colleges and universities including their affiliated schools of law and medicine and professional schools in the medical sciences as well as freestanding schools of law. For this and other reasons, data in this section will not necessarily match self-reported data in the FACTS institutional listings.

In some tables and charts, data may not add up due to rounding. In all cases, NEBHE's research services strive to obtain the most current data set for analysis and publication.

"First-Professional" degrees include degrees in: chiropractic, dentistry, law, medicine, optometry, osteopathic medicine, pharmacy, podiatry, theology and veterinary medicine.

Note also that in some cases, federal agencies and other sources have revised data reported in previous issues of FACTS. For this reason, longitudinal data in FACTS 1999 may differ from data presented in previous issues.

In several instances, FACTS refers to U.S. regions and regional divisions which are defined by the U.S. Census Bureau as follows:

NORTHEAST

New England: Connecticut, Maine; Massachusetts, New Hampshire; Rhode Island; and Vermont

Middle Atlantic: New Jersey; New York; and Pennsylvania

MIDWEST

East North Central: Illinois; Indiana, Michigan, Ohio; and Wisconsin

West North Central: Iowa; Kansas; Minnesota, Missouri, Nebraska; North Dakota; and South Dakota

SOURCES

The 163 charts and tables in **FACTS 1999: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES** are compiled by the Research Services staff of New England Board of Higher Education from the following sources.

HIGHER EDUCATION PROFILE: INSTITUTIONS, ENROLLMENT, STUDENT MIGRATION, DEGREES CONFERRED AND FACULTY

Items 1-11, 23-62 U.S. Department of Education, Office of Educational Research and Improvement. Data are drawn from the Integrated Postsecondary Education Data System (IPEDS, formerly HEGIS). IPEDS surveys are conducted annually. The most recent data sets are from 1996. (Note: 1998 is the most recent data set for Items 1, 2, 3; 1997 is the most recent data set for Items 59-62.)

Items 12-22 Institute of International Education, *Open Doors, 1997-1998*. Previous years' data are drawn from earlier editions of *Open Doors*. (Note: Items 15 & 22 are from 1996-97 data.)

ADVANCED TECHNOLOGY THROUGH HIGHER EDUCATION

Items 63-81, 88 National Science Foundation. *Selected data on Academic Science and Engineering: R&D Expenditures Early Release Tables, FY 1997*.

Items 65, 86, 88 U.S. Department of Commerce, Bureau of the Census data from *Statistical Abstract of the United States, 1997*.

Items 84-91 National Science Foundation, *Selected Data on Federal Support to Universities and Colleges, FY 1996*.

Items 82, 83 National Science Board, *Science and Engineering Indicators - 1998*. 14th edition.

Items 92-97 National Science Foundation, *Selected Data on Graduate Enrollment and Support, 1996*.

FINANCING HIGHER EDUCATION IN NEW ENGLAND

Items 98-103 New York State Higher Education Services Corporation. National Association of State Scholarship and Grant Programs, *28th Annual Survey Report*. Previous year's data are drawn from earlier editions of *Annual Survey Report*.

Item 103 U.S. Department of Commerce, Bureau of the Census data from *Statistical Abstract of the United States, 1997* and U.S. Department of Education, Office of Educational Research and Improvement. Data are drawn from the Integrated Postsecondary Education Data System (IPEDS, formerly HEGIS).

Item 104 U.S. Department of Education, Office of Postsecondary Education, *1996-97 Title IV/Federal Pell Grant Program End of Year Report*.

Items 105-109 U.S. Department of Education, Office of Postsecondary Education, *1998 Annual Compilation of Campus-Based Program Data*.

Items 110-113 New England Board of Higher Education, FACTS 1999: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES. Data are 1998-99 tuition and fees statistics collected and analyzed through an annual survey of New England institutions of higher education. U.S. figures provided by the The College Board *1998-99 Annual Survey of Tuition and Fees*.

Item 114, 116, 117 U.S. Department of Education, Office of Educational Research and Improvement. Data are drawn from the Integrated Postsecondary Education Data System (IPEDS, formerly HEGIS). IPEDS surveys are conducted annually. The most recent data sets for IPEDS tuition and fees are 1996-97 and the College Board *1998-99 Annual Survey of Tuition and Fees*.

Item 115 New England Board of Higher Education, FACTS 1999: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES. Data drawn from 1998-99 tuition and fees statistics collected and analyzed through an annual survey of New England institutions of higher education. U.S. figures drawn from the College Board *1998-99 Annual Survey of Tuition and Fees*.

Items 118-122 U.S. Department of Education, Office of Educational Research and Improvement. Data are drawn from the Integrated Postsecondary Education Data System (IPEDS, formerly HEGIS). IPEDS surveys are conducted annually. The most recent data sets are from 1996.

Item 123 M.M. Chambers and E.R. Hines, Center for Higher Education at Illinois State University, *Appropriations of State Tax Funds for Operating Expenses of Higher Education 1999*; also U.S. Department of Commerce, Bureau of Economic Analysis and Bureau of the Census, Personal Income and Population data from *Statistical Abstract of the United States, 1997*.

MINORITY PARTICIPATION IN HIGHER EDUCATION

Items 124,126-144, 146-148, 150-132, 154-156, 158-160 162-163 U.S. Department of Education, Office of Educational Research and Improvement. Data are drawn from the Integrated Postsecondary Education Data System (IPEDS, formerly HEGIS). IPEDS surveys are conducted annually. The most recent data sets are from 1996.

Items 124, 125, 144, 145, 148,149, 153, 156, 157, 159, 161 U.S. Department of Commerce, Bureau of the Census, *General Population Characteristics* Series, 1980 and 1990.

SOUTH

South Atlantic: Delaware, District of Columbia; Florida, Georgia; Maryland; North Carolina; South Carolina; Virginia; and West Virginia

East South Central: Alabama; Kentucky; Mississippi; and Tennessee

West South Central: Arkansas; Louisiana; Oklahoma; and Texas

WEST

Mountain: Arizona; Colorado; Idaho; Montana; Nevada; New Mexico; Utah; and Wyoming

Pacific: Alaska; California; Hawaii; Oregon; and Washington

OUTLYING AREAS

American Samoa; Guam; Northern Marianas; Puerto Rico; and Virgin Islands

In the **Advanced Technology Through Higher Education** section, R&D *expenditures* represent funds spent on research and development during a given fiscal year. R&D *obligations* represent funds allocated by federal agencies during a given fiscal year, which may be spent by the receiving institution either partially or entirely during one or more subsequent years. Also note that some tables and charts in this subsection deal with *doctorate-granting institutions*, while others deal with a broader grouping such as *colleges and universities* as defined by the National Science Foundation.

In the **Minority Participation in Higher Education** section, note that U.S. Department of Education surveys of enrollments and degrees granted by race/ethnicity have been conducted annually since 1990. Before 1990, the enrollment survey was conducted in even years only and the degree survey was conducted in odd years only.

NEBHE welcomes your comments and suggestions for further issues of FACTS.

Note: Research and Development *expenditures* represent funds spent on R&D during a given a fiscal year. R & D *obligations* represent funds allocated by federal agencies during a given fiscal year, which may be spent by receiving institutions either partially or fully during one or more subsequent years. College and universities are defined by the National Science Foundation as institutions of higher education that offer at least one year of college-level study leading toward a degree.

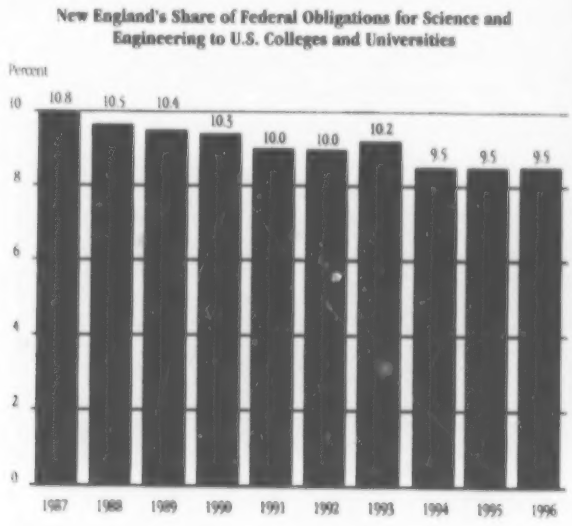
89. Federal Obligations for Science & Engineering to New England Colleges and Universities: 1987 to 1996



Note: Obligations for Science and Engineering (S&E) include all federal obligations for research and development as well as R&D plant, facilities for instruction in S&E, fellowships, traineeships, training grants, general support for S&E and other S&E activities. "General Support for S&E" includes support for unspecified projects as well as activities within a specified field of science and engineering but without a specific purpose. "Other S&E Activities" include support for technical conferences, teacher institutes and activities aimed at increasing the specific knowledge of pre-college and undergraduate students.

90. Federal Obligations for Science and Engineering to College and Universities by Type of Activity: 1996

(Percentages beneath dollar figures indicate share of total federal obligations)

Note: 1990-91 to 1996-97 data come from the U.S. Department of Education IPEDS surveys. Tuition for those years were weighted by the number of full-time equivalent undergraduates. IPEDS data do not reflect mandatory fees. The 1997-98 and the 1998-99 data are self-reported as part of the New England Board of Higher Education's annual Facts Survey of New England Colleges, Universities and Institutes, and are not weighted to reflect full-time undergraduates and may not be comparable to data reported elsewhere.

New England Public Two-Year Institutions: Average In-State and Out-of-State Tuition and Mandatory Fees, Academic Year 1998-99

	In-State				Out-of-State			
	1998-99 Tuition/Fees	1-Year % Change	3-Year %Change	5-Year % Change	1998-99 Tuition/Fees	1-Year % Change	3-Year %Change	5-Year % Change
Connecticut	$1,870	3.2%	13.7%	32.5%	$5,277	-3.1%	14.1%	25.1%
Maine	2,243	-10.7	3.0	15.7	4,418	-10.1	0.8	12.7

New England	$11,396	$13,353	$13,374	$14,212	$14,663	$15,887	$16,504	$18,213	$19,211	$7,815	69%
United States	9,083	10,393	10,294	10,952	11,481	12,243	12,920	13,909	14,508	5,425	60

Note: 1990-91 to 1996-97 data come from the U. S. Department of Education IPEDS surveys. Tuition and fees were weighted by the number of full-time equivalent undergraduates. The 1997-98 and the 1998-99 data are provided by The College Board. NEBHE calculated the state averages using unweighted College Board data. The regional and national totals for 1997-98 and 1998-99 are enrollment weighted averages provided by the College Board to reflect the average costs that students face in various types of institutions.

Note: Minority enrollment totals include only the four groups enumerated in this table. Minority totals from the U.S. Census Bureau include small portions of the population that are classified as non-White but do not fall into the categories listed above. Table does not include enrollment at military academies. African-American, Asian-American and Native-American totals reflect non-Hispanic population.

THE NEW ENGLAND BOARD OF HIGHER EDUCATION

EXPANDING OPPORTUNITIES FOR MORE THAN 40 YEARS

NEBHE'S History and Structure

NEBHE was created in 1955 by an interstate compact initiated by the governors of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, approved by the six state legislatures and authorized by the U.S. Congress.

Each of the states is represented on the board by eight delegates appointed by the governors and legislative leadership. NEBHE is a nonprofit 501(c)(3) organization. Basic funding to support NEBHE programs is provided by the six New England states. Supplemental funding is received from foundations, corporations and individuals.

NEBHE'S Goals

- Increase educational opportunities and services for New England residents.
- Promote regional cooperation and the efficient use of educational resources among New England's approximately 260 public and independent colleges and universities.
- Explore and strengthen the connection between higher education and economic development in New England.
- Sponsor and conduct policy studies and forums on higher education issues.

Increase Educational Opportunities and Services for New Englanders ...

NEBHE's New England **Regional Student Program** (RSP) is the nation's foremost interstate student exchange program. Established in 1957, the RSP enables New England residents to pay significantly reduced tuition at out-of-state public colleges and universities within the six-state New England region if they pursue certain academic programs not offered by their home-state public institutions.

In academic year 1997-98 alone, more than 7,000 New Englanders saved an average of $4,400 each in tuition costs under the RSP for a total of more than $32 million. The RSP also saves taxpayers millions of dollars by helping the six New England states avoid costly duplication of academic programs at their public campuses.

In addition, through reciprocal programs coordinated by NEBHE, New England students may spend one or two semesters at participating institutions in Quebec or Nova Scotia.

NEBHE's **Excellence Through Diversity Initiative** aims to bolster the number and success of underrepresented minority students and faculty at New England colleges and universities. The program's regionwide science network and smaller statewide networks provide special mentoring, community-building and internship opportunities for minority students at the high school through graduate school level. The Doctoral Scholars Program helps science departments recruit and retain underrepresented minority graduate students. The Dissertation Scholars Program in Humanities and Social Sciences enables advanced graduate students to spend a year in residence at host campuses in New England. These campuses often hire the visiting scholars.

Promote Cooperation Among New England's Colleges and Universities ...

NEBHE's **New England Technical Education Partnership** unites educators and professionals from various sectors in an effort to improve New England's two-year technical education programs, particularly in relation to emerging and burgeoning industries ranging from aquaculture to telecommunications.

NEBHE's **Environmental Education Program** includes the New England Regional Environmental Internship Program which provides students in the environmental sciences with real-world work experience with businesses, state governments and nonprofit organizations. The Environmental Education Program also examines ways in which New England colleges and universities support the region's environmental industry and environmental policymaking.

Explore the Connection Between Higher Education and New England's Economy ...

CONNECTION: NEW ENGLAND'S JOURNAL OF HIGHER EDUCATION AND ECONOMIC DEVELOPMENT is America's only regional journal on higher education and the economy. The journal's readers include all New England state legislators and members of Congress, the six governors and their staffs, corporate CEOs, college presidents and deans, high school guidance directors, editors and reporters, leaders of regional and national associations and members of higher education governing boards. CONNECTION is published four times a year, including the special annual directory issue called FACTS: THE DIRECTORY OF NEW ENGLAND COLLEGES, UNIVERSITIES AND INSTITUTES.

Sponsor and Conduct Policy Studies and Forums on Higher Educations Issues ...

NEBHE's **New England Public Policy Collaborative** (NEPPC) provides a framework for coordinating the region's policy research expertise, while enhancing public access to timely policy research. The collaborative creates policy networks and builds policy infrastructure via the Internet and through an annual conference on the New England agenda.

NEBHE's **New England Telecommunications and Distance Learning Program** explores how the region's campuses and businesses can make better use of telecommunications technology for education and training. Policy work focuses on regulation and accreditation of distance education, including computer-based, on-line educational programming.

NEBHE also ...

- Conducts and publishes state-by-state and regional analyses of trends in: college enrollment and demographics; degrees granted; workforce supply and demand; student indebtedness, student financial aid; tuition costs; endowment growth; research and development; technology transfer; and science and engineering education and training at New England colleges and universities.
- Serves as an information clearinghouse for New England and beyond, responding to inquiries from government, businesses, researchers, reporters and students and their families.
- Provides state policymakers and other officials with timely information through printed materials and state legislative briefings on issues ranging from student financial aid to the internationalization of the New England economy.
- Sponsors seminars and publishes reports for higher education administrators and others focusing on such critical issues as management of pension finds, campus debt financing and personal liability of college trustees and officers.

For more information on NEBHE and its programs, visit **www.nebhe.org** on the World Wide Web or call NEBHE at 617/357-9620.

Retired Dean
The Amos Tuck School of
Business Administration
Dartmouth College

Bennett Katz
Trustee
Maine Public Broadcasting Corp.

Terrence J. MacTaggart
Chancellor
University of Maine System

Rachel Talbot Ross
Director of Equal Opportunity and
Affirmative Action
City of Portland, Maine

MASSACHUSETTS

David C. Knapp
President-Emeritus
University of Massachusetts
NEBHE Chair

Carole A. Cowan
President
Middlesex Community College

Representative Thomas P. Kennedy
Assistant House Majority Leader
Massachusetts Legislature

Stanley Z. Koplik
Chancellor
Board of Higher Education

Jacqueline W. Liebergott
President
Emerson College

Senator David Magnani
Senate Vice Chair
Joint Committee on Education,
Arts & Humanities
Chair,
Science & Technology Committee
Massachusetts Legislature

Jack F. St. Clair
Law Offices of Jack F. St. Clair
Springfield, Mass.

NEW HAMPSHIRE

Representative William Belvin
Member, House Finance Committee
New Hampshire Legislature

William J. Farrell
Chancellor
University System of New Hampshire

Joan R. Leitzel
President
University of New Hampshire

Walter Peterson
Former Governor of New Hampshire

Evelyn Robbins
Durham, N.H.

Donald P. Wharton
President
Plymouth State College

Stanley Yarosewick
President
Keene State College

RHODE ISLAND

Senator Tom Coderre
Senate Deputy Majority Whip
Rhode Island Legislature

Senator Daniel P. Connors
Secretary
Senate Committee on Special Legislation
Rhode Island Legislature

Representative Gordon Fox
Member, House Finance Committee
Rhode Island Legislature

Stephen T. Hulbert
Commissioner
Rhode Island Office
of Higher Education

Robert J. McKenna
Chair, RI Higher Education
Assistance Authority
President, RI Independent
Higher Education Association

Eleanor M. McMahon
Distinguished Professor
Taubman Public Policy Center
Brown University
NEBHE Past Chair

Mayor John R. O'Leary
City of Cranston, R.I.

Representative Paul V. Sherlock
Vice Chair
House Finance Committee
Rhode Island Legislature

VERMONT

Charles I. Bunting
Chancellor
Vermont State Colleges

Senator Nancy I. Chard
Chair
Senate Education Committee
Vermont Legislature

Ann E. Cooper
Editor/Writer
Middlebury, Vt.

Representative Alice Miller
Vermont Legislature

Judith Ramaley
President
University of Vermont

Thomas Salmon
Member, Board of Directors
Green Mountain Power Corporation
Former Governor of Vermont

David S. Wolk
Superintendent of Schools
Rutland Public Schools

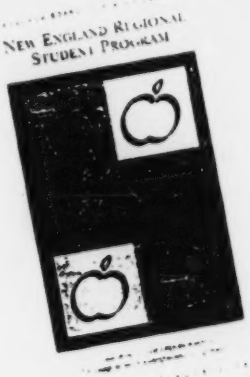
Visit the New England Board of Higher Education on-line

at http://www.nebhe.org

NEBHE's Web site features:

- An on-line version of the ***Apple Book,*** the catalog of the New England Board of Higher Education's tuition-saving Regional Student Program (RSP). New England residents can review degree programs and find out *on-line* whether they are eligible for major tuition savings through the RSP.
- Regularly updated information on NEBHE conferences and events.
- Information on NEBHE programs including: NEBHE's Environmental Internship Program, the New England Technical Education Partnership (NETEP) and the Excellence Through Diversity Initiative.
- On-line access to hundreds of **New England public policy centers and institutes** as well as news and announcements from the region's policy think tanks.



- **Abstracts of recent Connection articles,** as well as a full index of articles published in Connection from 1986 through the present. With a few clicks, visitors can order subscriptions or reserve advertising space in America's *only* regional journal on higher education and economic development
- Recent New England Board of Higher Education **news** releases featuring vital information for New England students and their families as well as analysis of trends and priority issues.
- **Comprehensive information** about the history, programs and publications of the New England Board of Higher Education.

PLUS:

- **Links to New England colleges and universities and other important higher education resources in New England and beyond.**

Document: Done.
